To Whom It May Concern,

Dear Admissions Committee,

I am pleased to recommend Artur Sendyka as a candidate for the Master's Degree program for the academic year 2025/2026.

I had the opportunity to get to know Artur Sendyka better as he is one of our students in the Culture Studies program at the Faculty of Arts at the University of Humanities and Economics in Łódź. He is a highly motivated, well-organized, creative, and active person who is committed to various academic pursuits. In the 2022/2023 academic year, he made significant efforts to reactivate the Student Self-Government at our university, serving as the chairman of the association. Additionally, since that year, Artur Sendyka has been a student representative on the Scientific Council of Cultural Studies.

I have been particularly impressed by his dedication to research and the skills he demonstrated when participating in the conference "Homo Sapiens Towards the Technology of Tomorrow: Nature, Language, Culture, Art," organized by our university. In the section I chaired, he successfully presented a paper on the pathologies of internet culture and web communities. This paper has been submitted for publication in the conference monograph which is set to be published in 2025. Furthermore, as a member of the Student Scientific Circle "Wkreceni," affiliated with Cultural Studies, Artur has shown his intellectual curiosity by submitting numerous drafts and ideas for future research and academic papers (in both Polish and English).

In conclusion, Artur Sendyka is an ambitious, smart, and talented young person. I highly recommend his candidacy for the Master's Degree program. I have no doubt that he will make an excellent addition to your academic community. Please feel free to contact me if you have any further questions regarding his achievements.

Sincerely,
